Happy Mother's Day

It is spectacular watching the seasons change. As autumn unfolds, we start to notice a definite chill in the air. It is time to check that your skincare and makeup are suitable for the changing season. It is a good time to repair the damage of the summer months by addressing pigmentation issues and sun damaged skin. It is also the time to ensure your skin is well hydrated. When skin is properly hydrated, it is smooth and plump, when it is not, it can be tight, flaky and dull. Try using Advanced B5 Serum, it is a super lightweight hydrator that holds 1000 times it's molecular structure.

IPL HAIR REMOVAL

Now is the perfect time to start a course of IPL treatments for hair removal. Be hair free by summer. **Buy 5 treatments and receive your 6th treatment for free.**
